PREFACE

VOCABULARY has a very important role to support speaking, listening Comprehension, reading comprehension and writing skill. People need to use words in order to express themselves in any language. They gain vocabulary to describe what they want to say as well as to understand what people say. Understanding vocabulary on written form is also very important in order to have Comprehension of what we read as well as to write message to make people understand what we write. These are the reasons why understanding vocabulary is an essential element in teaching.

This book is written to make it easier for students to recognize vocabulary on academic language in content areas. Vocabulary on academic language describes the language of schooling which words used across disciplines such as admission office, credit hour, etc. While content areas are specific to the discipline such as professional development, teaching method, etc. This book is composed of approximately 3.250 entry words which are targeted by the number of vocabularies that must be mastered by the students at the tertiary level on English department especially student within the scope of IAIN Parepare.

Grateful acknowledgement is made to those who helped this handbook completion. They are all English department lecturers, as well as the dean of tarbiyah faculty for the support of this working.

CHAPTER VII

ESSAY WRITING

“Research shows that there is only half as much variation in student achievement between schools as there is among classrooms in the same school. If you want your child to get the best education possible, it is actually more important to get him assigned to a great teacher than to a great school....
